VIBRANT

DEAR FELLOW CITIZEN,

On 16 March the local elections take place. The future of Leiden is decided by your ballot.

Vote for a green, fair and vibrant Leiden. Are you with us?

GROENLINKS LEIDEN MAKES A DIFFERENCE FOR:

- A liveable and green city. We plant trees all across the city to create new green places. Cyclists and pedestrians get priority over cars, and the speedlimit will be a maximum of 30 km/h to increase road safety. Every child can play on the streets again.
- A fair solution to the climate crisis. We are transitioning to a climate-neutral and environmentally sustainable city. We will distribute the costs fairly to ensure everyone can afford the transition to a green and sustainable city.
- A global city. We welcome all people to Leiden. We stimulate a vibrant and fun (working) environment for people from abroad and create opportunities for international residents to meet and exchange experiences with locals.
- Affordable housing for everyone. We are building more social housing, and homes for starters and students. New houses are sustainable and insulated.
- A city with a flourishing cultural sector. We stand for our large cultural, events and hospitality sector during the pandemic. We want to ensure all residents can enjoy what arts and culture Leiden has to offer. We stimulate art in neighborhoods across the city.

MAKE A DIFFERENCE. VOTE GROENLINKS ON 16 MARCH.

This flyer is printed on 100% recycled paper
